Mr. David Simonson Department of Energy/Rocky Flats Plant Trailer 130A P.O. Box 928 Golden, CO 80402

Dear Mr. Simonson:

I wish to bring to your attention the enclosed letter that my staff and the State of Colorado have transmitted to Frazer Lockhart regarding DOE funding of Rocky Flats IAG activities. The letter is self explanatory and expresses our deep concern that Rocky Flats cleanup activities be fully funded. Although I appreciate the difficulty involved in competing for funds, it is imperative that both DOE-HQ and DOE-RFP recognize the seriousness of the Agency's commitments within the Rocky Flats Interagency Agreement. For FY-92, it appears that you will not be able to meet all of your commitments and this budget shortfall will severely impact your ability to meet outyear milestones. I am especially troubled over the magnitude of the Five Year Plan's projected shortfall for FY-93. The IAG codifies the federal government's commitment to remediate the environment at Rocky Flats. It is imperative that adequate resources be provided to fulfill that commitment.

If you have any questions on this matter, or if we can assist you in your effort to obtain adequate resources, please contact myself or Martin Hestmark of my staff at 294-1134.

Sincerely,

Robert L. Duprey Director

Hazardous Waste Management Division
